

## Junior Engineer Monitoring of PV Power Plants

Established in 2009, Solarpro Holding is one of the leading players in the Central and Eastern Europe in the renewable energy solutions (photovoltaics sector). With over 1 000 employees in 9 countries, we offer wide range of smart energy systems and solutions. With more than 3 GW installed capacity and more than 100 PV plants under operation, we have gained significant experience in engineering, installation, operation and maintenance of PV systems (on-grid, off-grid and hybrid). We have been trading for over 13 years and take pride in delivering project specific solutions, sustainable results and added value to our clients.

Currently we are looking for Junior Engineer Monitoring of PV power plants. The successful candidate will perform in the monitoring center and will participate in different activities related to monitoring, diagnosis and analysis of PV plants operation. He will support the reporting processes and communication with clients in Bulgaria and other European countries.

### > MAIN RESPONSIBILITIES

- Perform monitoring of the PV power plants;
- Perform initial diagnostics and localization of accidents through SCADA system;
- Register all events related to the operational work of the PV power plants;
- Summarize data and events and prepare reports;
- Participate in the preparation of monthly reports (production, PR, availability, missed energy, event log, etc.);
- Process data on accidents of different origin and prepare periodic reports on the frequency and types of accidents;
- Liaise with network operators to obtain information about power outages;
- Work with engineers and maintenance technicians to locate, identify and repair a problem encountered in the operation of the PV power plants;
- Perform specific tasks assigned by the Operations Support Director.

### > YOUR PROFILE

- Education: Bachelor degree in electrical engineering, electronics, industrial automatization, or relevant;
- Language: strong command of English, not less than level B2;
- Knowledge of MS Office pack (Word, Excel)
- Skills: precision, attention to details, good organizational and communication skills;

### > WE OFFER

- Excellent working conditions in a team of professionals;
- Development in a multinational company operating in several EU countries, leader in PV sector in East Europe;
- Opportunity to gain knowledge in highly developing sector in the field of green energy and environment friendly solutions;
- Full-time employment contract.
