

Junior Energy Performance Engineer

GLOBAL PROVIDER OF **INNOVATIVE PV SOLUTIONS**

Established in 2007, Solarpro is one of the leading players in Central and Eastern Europe in the renewable energy solutions (photovoltaics sector). With over 1 000 employees in 9 countries, we offer wide range of smart energy systems and solutions. With more than 7 GWp installed capacity and more than 100 PV plants under operation, we have gained significant experience in engineering, installation, operation and maintenance of PV systems (on-grid, off-grid and hybrid). We have been trading for over 14 years and take pride in delivering project specific solutions, sustainable results and added value to our clients.

We are currently looking for a Junior Energy Performance Engineer.

➤ MAIN RESPONSIBILITIES:

- Deliver the Measurement & verification of operational energy performance contracts;
- Preparation and presentation of performance reconciliation reports to customers;
- Monitor the operational energy performances of the power plants;
- Identify optimisation opportunities to improve the energy performance of projects;
- Assist engineering teams in the development of Measurement, Verification and Root Cause Plans;
- Acting as an account manager during the PV power plants operational phase;
- Preparing of internal and truth party reports (clients report);
- Keep and maintain adequate O&M report documentation and client files;
- Participate in new SCADA system development and integration;
- Monitors and verify the proper preparation of reports on OM activities;
- Support and manage the processes related to the operation and maintenance of the plants.

➤ YOUR PROFILE

- Bachelor's degree in Engineering, Renewable Energy, or related field.
- Excellent communication skills, with the ability to effectively present technical information to non-technical stakeholders.
- Ability to work independently and collaboratively in a fast-paced environment, with a proactive and problem-solving mindset.
- Knowledge of solar energy industry standards, regulations, and best practices is a plus;
- Excellent command of English - written and spoken.

➤ WE OFFER

- Development in a multinational company operating in several EU countries;
- Opportunity to gain knowledge in highly developing sector in the field of green energy and environment friendly solutions;
- Excellent working conditions including opportunities for home office, social benefits, etc.;
- Be part of a team of professionals, knowledge leaders in PV sector in Eastern Europe.
