

Established in 2007, **Solarpro** is one of the leading players in Central and Eastern Europe in the renewable energy solutions. With over 1 000 employees in 9 countries, we offer wide range of smart energy systems and solutions. As a leading EPC contractor, technological innovator and multi-technology integrator with expertise in hybrid projects implementing PV, Wind and BESS we have executed and operate more than 300 PV plants (7 GWp installed capacity) and maintain more than 550 wind generators – some among the region’s largest and most challenging, but all consistently achieving top performance. We act as a sustainability partner recycling PV modules and batteries, converting damaged land into state-of-the art cleaning energy plants.

For our EPC project located near Silistra, we are seeking to hire an experienced Quality Control Specialist to be on-site and responsible for the daily execution of the project in terms of quality.

Main responsibilities:

- Interpret, build upon, and comply with company quality assurance standards;
- Monitor risk-management procedures, maintain problem logs, and report issues to Site Manager and Project Manager;
